

HiTEC Light Sensor H8-LIGHT-SENSOR \$8.99

This sensor detects light.

This sensor uses a photoresistor that changes resistance when the light changes. Inside the shrouding is a voltage divider.

- Operating luminance: more than 80 Lux

- Operating voltage: 5 V
- Dimension: 12.9 x 14.6 mm (0.50 x 0.57 in)
- Weight: 5.8 gm (0.2045 oz)
- Wire length: 322 mm (12.67 in)
