

Eltec Pyroelectric detector R1-442-3 \$60.00

The 442-3 IR-EYE[®] Integrated Sensor is a Lithium Tantalate pyroelectric, parallel opposed, dual element, high gain detector with integral analog signal processing. This high gain detector offers great detection capability over a temperature range of -40 to +70 °C. This detector has short circuit protection but DOES NOT protect against reverse supply polarity.

- Eliminate Burn-In Tests
- Improve RF Immunity
- Eliminate False Alarms
