

## NARP 8cm Polyurethane Wheels R130-8CM-POLY-ROLLER \$42.25

This polyurethane roller wheel makes an excellent caster for a very large mobile robot. It also works well in a 3-wheel, holonomic drive robot.

The polyurethane rollers offer improved traction on slick surfaces when compared to omni directional wheels with nylon rollers.

Specifications	
Dimension	80 mm (3.15 in)
Weight	283 gm (9.98 oz)
Hub	63.9 mm (2.51 in)
Axle Bore	8.4 mm (0.33 in)
Roller Capacity	45.3 kg to (99.87 lb)
