

USB to RS485 Connector R305-USB-RS485 \$29.50

The Devantech USB-RS485 is a self-powered USB to RS485 module. RS485 serial information is automatically converted to serial information on a USB Virtual COMM port in both transmit and receive.

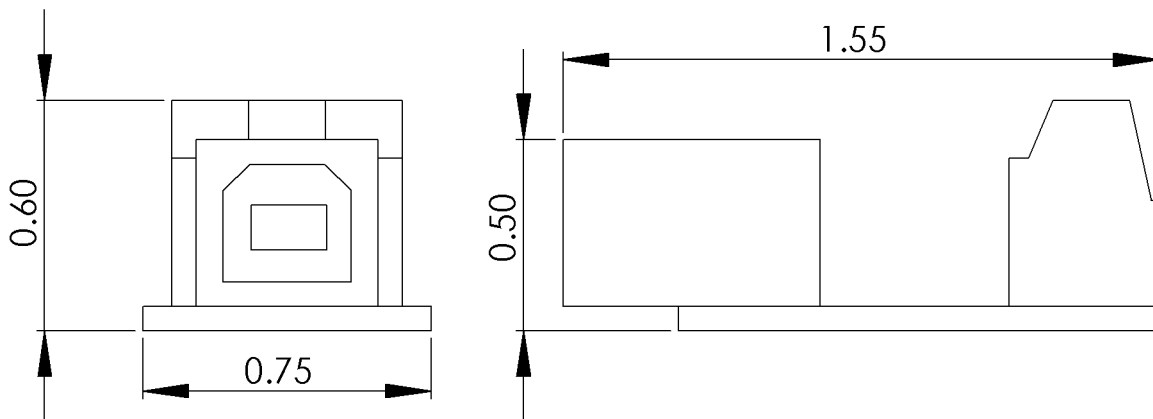

More Details

The USB-RS485 module provides a complete bridging interface between a USB Virtual COMM port and RS485 signals. Additional technical information can be found at Devantech's Technical Documentation page.
